What's New?

FORM 1099-NEC Resized

The 2021 NEC form was streamlined in format and includes a few strategic changes, such as the addition of Box 2 to avoid the need to file both a 1099-MISC and 1099-NEC. The IRS also deleted the FATCA filing requirement box and two large red boxes

As a result of the form updates, the 2021 form was resized to accommodate three forms on a page.

YOU CAN ORDER PREPRINTED FORMS BLANK FORMS • SETS & KITS

OUR BASIC W2 FORM IRS FORMAT

Each sheet contains information for two employees. All copies are printed separately and the employee copies must be collated for envelope insertion. Forms are sold in packages of 50 8-1/2" x 11" sheets yielding 100 individual W2 forms. Bulk packages of 500 sheets yielding 1,000 forms are available.

W2 BLANK FORMS FOR YOUR SOFTWARE

Blank forms are available for use with software and features perforations depending on how your software outputs the data. Blank forms are available with or without Copy B, Copy C, and Copy 2 backer information.

PACKAGE SETS

Our Package Sets offer you everything you need together in one convenient package for 25 to 50 employees and 20 to 100 employees. Our Package Sets add our self-seal envelopes to the mix. Package Sets are available in Laser forms and are matched to your software capabilities. If your software prints only the variable data you'll choose the pre-printed forms. If your software prints the complete form then you'll order the blank perforated forms. Remember that the Federal Copy A of all W2 and 1099 forms must be completed on pre-printed forms with scannable red ink.

ALL FORMS HAVE BEEN OFFICIALLY APPROVED

We work closely with government agencies to ensure that we offer the most complete and compliant line of forms available in the industry today. All forms meet rigid IRS and SSA printing standards in order to pass their OCR (Optical Character Recognition) requirements. All changes and updates have been made and new forms added. In addition, all form have been approved by the Federal Government as well as State and City Tax Agencies.

LASER FORMS:

Our laser forms come in 8.5"x 11" sheets and come pre-printed or blank format to accommodate output of data of the majority of software programs. They are 20# white bond that are IRS official specs, our lasers are available in standard and bulk packages as described throughout our catalog. They accommodate the traditional Laser and ink-jet printers that are in use in business and home office.

PRESSURE SEAL TAX FORMS are self-mailing forms that are growing in popularity due to the convenience of one-piece mailing and built-in security of a sealed form. They are printed on 28# white ledger bond paper using heat resistant inks. There is an adhesive around the edge of the forms that when run through a sealing machine the minuscule glue capsules burst and create a bond, thus creating the self-mailer. There are 500 forms per package.

PRESSURE-SEAL FORMS: HOW ARE THEY USED?

Pressure-seal forms ensure security and are used by a wide variety of customers. Instead of requiring a separate envelope, pressure-seal forms have thin strips of adhesive that — when pressed together — create a "self-mailer." Customers require specialized sealing equipment to generate these, but the efficiency is often worth it. We offer a full line of stock pressure-seal tax forms, and can also quote on custom jobs.

We offer these in a variety of Z-fold, V-Fold and Eccentric Fold

CONTINUOUS FORMS

Continuous forms accommodate the traditional pin-feed printers also known as high impact, dot matrix and pin feed printers. We offer various types of constructions for clearer print quality. Twin sets are two 3-Part or 4-Part sets collated so the employer's and employee's forms are separated. Self-mailers save time and money as all the employee forms are pre-inserted in the envelope ready for mailing. We use the official IRS format so our forms will fit the majority of software programs. If in doubt, ask for samples.

If filing 250 or more forms you must submit them electronically. Employers who are electronically filing their wage information to SSA require only the forms for the employee and possibly their own State and/or File copies. Various combinations are available in 1-wide, carbonless non-mailer format. Order in the number of forms needed.

E-FILE AND SECURE PRINT AND MAIL CENTER

The market for paper tax forms is declining 3-5% every year, because businesses are filing differently. Rely on the experts for fast, secure processing of W2s, 1099s and ACA forms. Today, more and more businesses are switching from traditional paper filing to outsourcing the processing of 1099's, W2s and, most recently ACA forms. As a result, there's never been a greater time to take advantage of print, mail and e-file services. It's a dedicated print and mail resource for high-volume 1099, W2 and ACA forms filing.

OUR BASIC 1099-MISCELLANEOUS FORMAT

Form 1099MISC, the most common form variant of Form 1099, used to report miscellaneous income. There are three parts to the 1099-Miscellaneous form...the Federal Copy A, Recipient Copy B and Payer Copy C and/or State Copy. All Copy A's, Copy B's, Copy C's are printed separately and must be collated. Each sheet of our basic 1099-Miscellaneous form contains information for two recipients. Forms are available as packages of 50 8-1/2" x 11" sheets yielding 100 individual 1099 forms. Bulk packages of 500 sheets yielding 1,000 forms are also available.

1099-MISCELLANEUOUS BLANK FORMS FOR YOUR SOFTWARE

Blank forms are available with or without Copy B and Copy C backer information pre-printed. Blank forms are also available with multiple

backers and can be used for various 1099 forms (i.e. 1099 DIV, 1099 INT, 1099 R). You can choose from a 2-Up format with or without stub.

PACKAGED SETS

Our packaged sets offer everything you need together in one convenient package for 25 to 50 recipients and 20 to 100 recipients. Our packaged sets contain all the forms needed to process information as required by your reporting agency. Laser form type depends on your software. If your software only prints the variable data on the forms, you will require pre-printed forms. If your software includes laser form files that print complete 1099 form copies you will require blank perforated paper. Forms are available as packages of 50 8-1/2 x 11" sheets yielding 100 individual 1099 forms. Bulk packages of 500 sheets yielding 1,000 forms are also available.

W2G

Form W2G is used to report gambling winnings and any Federal income tax withheld on those winnings. The requirements for reporting and withholding depend on the type of gambling, the amount of the gambling winnings, and generally the ratio of the winnings to the wager. The types of gambling are grouped as follows: 1. Horse Racing, Dog Racing, Jai Alai, and Other Wagering Transactions, 2. Sweepstakes, Wagering Pools, and Lotteries, 3. Bingo, Keno, and Slot Machines.

Due to recent IRS changes we only offer Dateless forms, available in both laser and continuous formats. Requires envelope DWW2G.
